

Thomas Park's Free Web Applications

By Thomas Park

The Generative/Iterative Jukebox-- A free online radio stream of generative audio works, especially of the generative/iterative variety.

<https://www.thomasparksolutions.com/>

The Reanimator-- A generative music environment that repopulates every day.

<https://www.thomasparksolutions2.com/>

Thomas Park Audio Explorer-- This station features complete, non-generative tracks, but it is special in that it retrieves its own playlists every 30 minutes from the internet archive, and chooses its tracks to play randomly from them.

<https://www.thomasparksolutions3.com/>

Endless Dub Radio-- For lovers of dub, a continual stream of cool generative dub music, with sound collage elements.

<https://www.thomasparksolutions4.com/>

Tracks By Thomas Park-- Sample any from a collection of over 1200 original tracks by Thomas Park from any of his completed musical projects.

<https://www.thomasparksolutions5.com/>

Autonomous Outlands-- A very noir stream of generative fractal jazz, with some other cool sounds randomly added.

<https://www.thomasparksolutions6.com/>

The Heliades-- A generative vocal system that shifts according to the time of day. Featuring the vocal talents of Rebekkah Hilgraves.

<https://www.thomasparksolutions7.com/>

Synthetic Sounds At KDHX-FM-- Listen to sample broadcasts, learn and dialogue about Thomas Park's 'Synthetic Sounds' electronic radio show on KDHX-FM 88.1 Saint Louis, MO USA.

<https://www.thomasparksolutions8.com/>

Radio In C- Based on Terry Riley's seminal 'In C' composition, this radio stream features a variety of sounds recorded in the key of 'C'.

<https://www.thomasparksolutions9.com/>

The Internet Archive Playlist Generator- Search for and assemble tracks in playlists the way Thomas Park does, using an original Python application. Store the track links in your own personal database.
