Thomas Park's Generative Radio Network
By Thomas Park

All Gen Radio-- All of my original generative environments, and even a playlist of pre-recorded fractal music, are included in this exciting catch-all station.

https://www.thomasparksolutions5.com/

Generative Soundscape Radio-- A station featuring dark and interesting soundscapes that load in, some with beats. There are also some sessions that feature independent artists.

https://www.thomasparksolutions.com/

The Reanimator-- A deep, dark stream that actually derives its own loops automatically many times a day.

https://www.thomasparksolutions2.com/

Endless Dub Radio-- Nothing but dub, all of the time. Dub beats and bass with strange and wacky sounds atop.

https://www.thomasparksolutions4.com/

Autonomous Outlands- Dark, jazz-infused atmospheres, all day every day.

https://www.thomasparksolutions6.com/

The Heliades-- A generative vocal system that shifts according to the time of day. Featuring the vocal talents of Rebekkah Hilgraves.

https://www.thomasparksolutions7.com/

Beat Butcher Radio-- A station dedicated to Jack Danger. Beats intermingle with twisted and interesting soundscapes, 24/7. Get your industrial on.

https://www.thomasparksolutions8.com/

Radio In C-- A dedication to Terry Riley, this stream features notes and riffs in the key of C only. More sounds will be added as contributed by musicians.

https://www.thomasparksolutions9.com/

Thomas Park Audio Explorer-- This station features complete, non-generative tracks, but it is special in that it retrieves its own playlists every 30 minutes from the internet archive, and chooses its tracks to play randomly from them.
